Inconclusive Resolutions

⚠ Document Needed: ARTWORK SOP

Reason: Artwork SOP not uploaded. G1 and G2 cannot be verified.

Affected (2): G1, G2

Reviewer Remarks

- The storage condition statement in DOC1 is generally compliant with reference documents and regulatory standards for Zone IVb (India).
- Manufacturer name punctuation is inconsistent across the dossier and should be harmonized to avoid regulatory queries.
- No specific %RH is stated; recommend updating to include 'below 65% RH' for full compliance with ICH/WHO guidance.
- No ARTWORK SOP was provided; artwork symbol compliance could not be verified.
- Consider adding 'Protect from light' if API is photosensitive, based on review of stability data.
- No critical or major compliance issues detected; minor corrections recommended before submission.
