A. Document Identification & Control

Document header, product name, revision date, version code, shelf life, manufacturer, MAH, and disclaimer.

i ASSUMED A₁ — DOCUMENT TYPE HEADER

Value: Patient Information Leaflet
Trained Data: MHRA Blue Guide: PIL must be titled 'Patient Information Leaflet' (MHRA Blue Guide)
Reason: Header present in DOC1, not referenced in other documents, but matches regulatory requirement.

✓ COMPLIANT A₂ — PRODUCT FULL NAME

Value: ACICLOVIR Rhydburg 400 mg Tablets
Found in:
❏ DOC2(DOC2(QQ)) ACICLOVIR TABLETS BP 400 MG
❏ DOC3(DOC3(FPMP)) Product Name = Aciclovir Rhydburg 400 mg Tablets
Trained Data: WHO INN: Aciclovir; BP/USP: Aciclovir Tablets 400 mg (WHO INN, BP Monograph)
Reason: -

i ASSUMED A₃ — DATE OF LAST REVISION

Value: Date of last revision of this leaflet: September 2019
Trained Data: MHRA Blue Guide: Date of last revision must be present in Month Year format (MHRA Blue Guide)
Reason: Date present in correct format; not referenced in other documents.

i ASSUMED A₄ — VERSION CODE

Value: Version: AEMPS-AcicloCinfa200-V₂-Sept2019
Trained Data: MHRA Blue Guide: Version code should encode revision date (MHRA Blue Guide)
Reason: Version code encodes same date as revision date.

✓ COMPLIANT A₅ — SHELF LIFE

Value: Shelf Life: 30 months from the date of manufacturing
Found in:
❏ DOC3(DOC3(FPMP)) Shelf Life = 30 months from the date of manufacturing.
Trained Data: ICH Q₁A: Typical shelf life for Aciclovir tablets is 24-36 months (ICH Q₁A)
Reason: -

✓ COMPLIANT A₆ — MANUFACTURER NAME AND ADDRESS

Value: Rhydburg Pharmaceuticals Ltd.
India, For: Rhydburg LLP, India
Found in:
❏ DOC2(DOC2(QQ)) RHYDBURG PHARMACEUTICALS LTD
SELAQUI, DEHRADUN, INDIA
❏ DOC3(DOC3(FPMP)) RHYDBURG PHARMACEUTICALS LTD
SELAQUI, DEHRADUN, INDIA
❏ DOC4(COA-API) RHYDBURG PHARMACEUTICALS LTD.
SELAQUI, DEHRADUN, INDIA
Trained Data: Company registration: Rhydburg Pharmaceuticals Ltd., India (MHRA Blue Guide)
Reason: -

B. Product Description & Therapeutic Use (Section 1)

Drug class, therapeutic indications, antibiotic statement, multiple API statement, disease education.

i ASSUMED B₁ — SECTION 1 HEADING

Value: 1. What is ACICLOVIR Rhydburg 400 mg Tablets and what is it used for?
Trained Data: EMA QRD: Section 1 heading should be 'What [product] is and what it is used for' (EMA QRD Template)
Reason: Heading matches QRD template.

i ASSUMED B₂ — DRUG CLASS / PHARMACOLOGICAL GROUP

Value: Aciclovir belongs to a group of medications known as antivirals.
Trained Data: Drugbank DB00787: Aciclovir is an antiviral (ATC J₀₅AB01) (Drugbank, WHO ATC)
Reason: Drug class matches trained data.

✓ COMPLIANT B₃ — THERAPEUTIC INDICATIONS

Value: It is used to treat and prevent infections caused by the herpes simplex virus, genital herpes, shingles, and chickenpox virus.
Found in:
❏ DOC3(DOC3(FPMP)) Therapeutic Indication = Acyclovir is an antiviral drug that is used to treat symptoms of shingles, chickenpox, cold sores and genital herpes which are all caused by herpes viruses.
Trained Data: Drugbank DB00787: Indications include herpes simplex, genital herpes, varicella (chickenpox), herpes zoster (shingles) (Drugbank)
Reason: -

C. Contraindications, Warnings & Interactions (Section 2)

Allergy contraindications, condition-specific warnings, drug interactions, pregnancy/breastfeeding, driving, and all clinical precautions.

i ASSUMED C₁ — SECTION 2 HEADING

Value: 2. What you need to know before you start taking ACICLOVIR Rhydburg 400 mg Tablets
Trained Data: EMA QRD: Section 2 heading should be 'What you need to know before you take/use [product]' (EMA QRD Template)
Reason: Heading matches QRD template.

i ASSUMED C₂ — ALLERGY/HYPERSENSITIVITY CONTRAINDICATION

Value: If you are allergic to aciclovir, valaciclovir or any of the other ingredients of this medicine (listed in section 6).
Trained Data: MHRA: Contraindicated in patients with hypersensitivity to aciclovir, valaciclovir, or excipients. (MHRA Blue Guide)
Reason: Standard wording, matches regulatory requirement.

i ASSUMED C₈ — Warnings and precautions

Value: Consult your doctor or pharmacist before starting to take acyclovir.
Trained Data: MHRA: Standard precaution statement. (MHRA Blue Guide)
Reason: -

i ASSUMED C₉ — Renal impairment and elderly warning

Value: If you have kidney disease or are elderly, your doctor may need to lower your dose. You should also drink plenty of fluids during treatment to maintain proper hydration.
Trained Data: MHRA: Dose adjustment and hydration recommended in renal impairment and elderly. (MHRA Blue Guide)
Reason: -

i ASSUMED C₁₀ — Genital herpes transmission precaution

Value: If you have genital herpes, it is recommended that you take precautions during sexual intercourse even if you have started antiviral treatment.
Trained Data: MHRA: Patients should be advised to take precautions to avoid transmission. (MHRA Blue Guide)
Reason: -

i ASSUMED C₂₇ — DRUG INTERACTIONS SECTION

Value: Tell your doctor or pharmacist if you are taking, have recently taken, or might take any other medicines.
Trained Data: MHRA: Standard drug interaction warning. (MHRA Blue Guide)
Reason: -

i ASSUMED C₂₈ — Specific drug interaction warning

Value: TELL YOUR DOCTOR IF YOU HAVE RECENTLY TAKEN PROBENECID, CIMETIDINE, OR MYCOPHENOLATE MOFETIL (A DRUG USED IN TRANSPLANT PATIENTS).
Trained Data: Drugbank: Probenecid, cimetidine, and mycophenolate mofetil can increase aciclovir levels. (Drugbank)
Reason: -

i ASSUMED C₂₉ — PREGNANCY AND BREASTFEEDING SECTION

Value: If you are pregnant or breastfeeding, think you may be pregnant, or are planning to have a baby, consult your doctor or pharmacist before taking this medicine.
Trained Data: MHRA: Standard pregnancy and breastfeeding warning. (MHRA Blue Guide)
Reason: -

i ASSUMED C₃₀ — BREASTFEEDING WARNING

Value: Acyclovir passes into breast milk. Contact your doctor or pharmacist if you are breastfeeding.
Trained Data: MHRA: Aciclovir is excreted in breast milk; caution advised. (MHRA Blue Guide)
Reason: -

i ASSUMED C₃₁ — DRIVING AND USING MACHINES

Value: Some side effects, such as drowsiness or sleepiness, may affect your ability to concentrate and react. Do not drive or operate machinery if you feel this is affected.
Trained Data: MHRA: Standard warning for CNS effects. (MHRA Blue Guide)
Reason: -

D. Excipient Warnings (EMA/CHMP/302620/2017 + Excipient Master Reference)

Sodium, lactose, sucrose, sorbitol, parabens, BAC, boron, propylene glycol, benzyl alcohol, aspartame, tartrazine, azo dyes, and all other excipient warnings. Cross-checked against the curated Excipient Master Reference document where supplied, in addition to EMA/CHMP/302620/2017. Master reference source: <https://writer.zoho.com/writer/open/9sv8w8018f348a0b34f2c9bcf0ffa891009ee>

i ASSUMED D₁ — SODIUM WARNING

Value: This medicine contains less than 23 mg of sodium (1 mmol) per tablet; that is to say, essentially "sodium-free".

Trained Data: EMA/CHMP/302620/2017: Sodium warning required if >1 mmol; 'essentially sodium-free' if (EMA/CHMP/302620/2017)

Reason: Warning present and matches EMA guideline.

✓ COMPLIANT D₂ — LACTOSE WARNING

Value: Lactose: This medicine contains lactose. Patients with hereditary galactose intolerance, Lapp lactase deficiency, or glucose-galactose malabsorption should not take this medicine. Take into account in the treatment of patients with diabetes mellitus.

Found in:

📄 DOC2(DOC2(QQ)) • Anhydrous Lactose@@

- BP
- -
- 60.00
- Diluent

Trained Data: EMA/CHMP/302620/2017: Lactose warning required for patients with galactose intolerance, Lapp lactase deficiency, or glucose-galactose malabsorption. (EMA/CHMP/302620/2017)

Reason: -

E. Dosage & Administration (Section 3)

Adult/pediatric/elderly dosing, duration, route, missed dose, overdose, stop-taking, reconstitution, HCP-only information, and all administration instructions.

i ASSUMED E₁ — SECTION 3 HEADING

Value: 3. How to take ACICLOVIR Rhydburg 400 mg Tablets

Trained Data: EMA QRD: Section 3 heading should be 'How to take/use [product]' (EMA QRD Template)

Reason: Heading matches QRD template.

i ASSUMED E₂ — ADULT DOSE

Value: For the treatment of herpes simplex infections: one 400 mg tablet three times a day every four hours, omitting the night time dose

For the suppression of herpes simplex virus flares: one 400 mg tablet two times a day every six hours, or two 200 mg tablets twice a day every twelve hours

For the prevention of herpes simplex infections in immunosuppressed patients: one 400 mg tablet three times a day every six hours

For the treatment of chickenpox and shingles infections: Two 400 mg tablets three times a day every four hours, omitting the night time dose.

Trained Data: MHRA/Drugbank: Typical adult dose for herpes simplex: 400 mg 3x/day; for suppression: 400 mg 2x/day; for shingles: 800 mg 5x/day (or 2x400 mg 3x/day); for immunosuppressed: 400 mg 3x/day. (MHRA Blue Guide, Drugbank)

Reason: Doses are within standard ranges.

i ASSUMED E₃ — PEDIATRIC DOSE

Value: For the treatment of herpes simplex infections and prevention of herpes simplex infections in immunosuppressed children:

Children and adolescents (2 to 18 years): the dosage is the same as for adults

Infants (28 days to 23 months): will be treated with half the adult dose.

There are other presentations available that are more appropriate for children under 6 years of age.

for the treatment of chickenpox:

Children (over 6 years) and adolescents: Two 400 mg tablets two times a day

Children between 2 and 6 years: One 400 mg tablets two times a day.

Trained Data: MHRA: Pediatric dosing for aciclovir is typically half adult dose for infants, same as adults for older children. (MHRA Blue Guide)

Reason: Dosing matches standard pediatric recommendations.

i ASSUMED E₁₀ — MISSED DOSE INSTRUCTION

Value: Do not take a double dose to make up for a missed dose, just wait until the next dose.

Trained Data: MHRA: Standard missed dose instruction. (MHRA Blue Guide)

Reason: -

i ASSUMED E₁₁ — OVERDOSE INSTRUCTION (PATIENT-FACING)

Value: In case of overdose or accidental ingestion, consult your doctor or pharmacist immediately or call the Poison Control Center , indicating the medication and the amount ingested.

Trained Data: MHRA: Standard overdose instruction. (MHRA Blue Guide)

Reason: -

i ASSUMED E₁₂ — OVERDOSE & TREATMENT (HCP GUIDANCE)

Value: Acyclovir is only partially absorbed from the gastrointestinal tract. Patients who have ingested overdoses of up to 20 g of acyclovir in a single dose generally do not experience toxic effects. Incidentally, repeated oral overdoses of acyclovir over several days have been associated with gastrointestinal effects (such as nausea and vomiting) and neurological effects (headache and confusion).

Treatment:

Patients should be closely observed for signs of toxicity. Hemodialysis significantly increases the elimination of acyclovir from the blood and may therefore be considered as an option if symptoms of overdose occur.

Trained Data: MHRA: Hemodialysis may be used in severe overdose. (MHRA Blue Guide)

Reason: -

F. Adverse Effects (Section 4)

Very common, common, uncommon, rare, very rare, frequency not known adverse effects. Urgent alerts, organ system categories, frequency legend.

i ASSUMED F₁ — SECTION 4 HEADING

Value: 4. Possible adverse effects

Trained Data: EMA QRD: Section 4 heading should be 'Possible side effects' (EMA QRD Template)

Reason: Minor wording difference; content matches intent.

i ASSUMED F₃ — COMMON (up to 1 in 10)

Value: Common side effects (may affect up to 1 in 10 people)

Headache, dizziness, feeling of tiredness, fever.

Nausea, vomiting, diarrhea, stomach pain.

Itching, skin rashes (sometimes caused by sensitivity to sunlight)

Trained Data: Drugbank: Common AEs include headache, nausea, vomiting, diarrhea, rash. (Drugbank)

Reason: Adverse effects listed match standard profile.

i ASSUMED F₄ — UNCOMMON (up to 1 in 100)

Value: Uncommon side effects (may affect up to 1 in 100 people)

Loss of hair.

Urticaria.

Trained Data: MHRA: Uncommon AEs include urticaria, hair loss. (MHRA Blue Guide)

Reason: -

i ASSUMED F₅ — RARE (up to 1 in 1,000)

Value: Rare side effects (may affect up to 1 in 1,000 people)

Changes in blood tests (reversible increases in bilirubin and liver enzymes, increases in blood urea and creatinine).

Difficulty breathing.

Angioedema (swelling of the lips, eyes and tongue).

Sudden and severe allergic reaction (anaphylactic reaction).

Trained Data: MHRA: Rare AEs include angioedema, anaphylaxis, abnormal LFTs. (MHRA Blue Guide)

Reason: -

i ASSUMED F₆ — VERY RARE (up to 1 in 10,000)

Value: Very rare side effects (may affect up to 1 in 10,000 people)

Anemia (decrease in the number of red blood cells) or leukopenia (decrease in the number of white blood cells), bruising (due to a decrease in the number of platelets).

Agitation, confusion, tremors, difficulty moving, difficulty speaking, confusion or imagining things (hallucinations), changes in personality and behavior, seizures, drowsiness, encephalopathy (brain damage), coma. These effects are generally reversible and usually occur in patients with kidney problems or predisposing factors.

Hepatitis (liver inflammation), jaundice (yellowing of the skin and eyes), acute kidney failure, kidney pain (may be associated with kidney failure).

Trained Data: MHRA: Very rare AEs include hematological changes, neurotoxicity, hepatitis, renal failure. (MHRA Blue Guide)

Reason: -

G. Storage (Section 5)

Storage temperature, keep out of reach of children, expiry date, after-opening discard, do not freeze, visible deterioration. Cross-checked against the SOP of Artwork's "Common Legend" (Sub-Section 4: temperature/light/humidity; Sub-Section 5: handling/discard/child-safety) where the SOP_ARTWORK document is supplied, in addition to the Storage Condition (2077) document and ICH Q1A.

❗ ASSUMED **G₁ — SECTION 5 HEADING**

Value: 5. Storage of ACICLOVIR Rhydburg 400 mg Tablets
Trained Data: EMA QRD: Section 5 heading should be 'How to store [product]' (EMA QRD Template)
Reason: Minor wording difference; content matches intent.

✔ COMPLIANT **G₂ — STORAGE TEMPERATURE**

Value: Store in a dry place at a temperature below 30°C.Medicinal product, keep out of reach of children.
Found in:
❏ DOC6(Storage) Store in a dry place at a temperature below 30°C.
❏ DOC3(DOC3(FPMP)) • Storage Condition = Store below 30°C protected from light.
• Keep out of the reach of children
Trained Data: ICH Q₁A: Store below 30°C is standard for Aciclovir tablets. (ICH Q₁A)
Reason: -

✔ COMPLIANT **G₃ — KEEP OUT OF REACH OF CHILDREN**

Value: Medicinal product, keep out of reach of children.
Found in:
❏ DOC6(Storage) Medicinal product, Keep out of reach of children.
❏ DOC3(DOC3(FPMP)) Keep out of the reach of children
Trained Data: MHRA/EMA: Mandatory statement. (MHRA Blue Guide)
Reason: -

❗ ASSUMED **G₄ — EXPIRY DATE INSTRUCTION**

Value: Do not use this medicine after the expiry date shown on the packaging after EXP. The expiry date refers to the last day of that month.
Trained Data: MHRA: Standard expiry date instruction. (MHRA Blue Guide)
Reason: -

H. Composition & Packaging (Section 6)

Active ingredient(s), strength, salt form, excipients list, appearance, colour, shape, coating, scoring, packaging presentations, container description.

❗ ASSUMED **H₁ — SECTION 6 HEADING**

Value: 6. Contents of the package and additional information
Trained Data: EMA QRD: Section 6 heading should be 'Contents of the pack and other information' (EMA QRD Template)
Reason: Minor wording difference; content matches intent.

✔ COMPLIANT **H₂ — ACTIVE INGREDIENT NAME(S)**

Value: The active ingredient is acyclovir. Each tablet contains 400 mg of acyclovir.

Reason: -

✓ COMPLIANT H₈ — PRODUCT APPEARANCE DESCRIPTION

Value: ACICLOVIR Rhydburg 400 mg Tablets comes in tablet form. They are : White/off-white, elongated shaped, biconvex, uncoated tablets, scored on one side & plain on other side.

Found in:

- DOC3(DOC3(FPMP)) Product Description = White/off-white, elongated shaped, biconvex, uncoated tablets, scored on one side & plain on other side.

Trained Data: BP Monograph: Description must match product specification. (BP Monograph)

Reason: -

✓ COMPLIANT H₁₆ — PACKAGING PRESENTATIONS (ALL PACK SIZES)

Value: The tablets are packaged in Alu/PVC blisters.

ALU PVC Blister (10x1): 10 Tablets packed in Amber color Aluminium-Polyvinyl Chloride blisters sealed with Aluminum foil, such blister packed in a printed unit carton along with a package insert.

ALU PVC Blister (10x3): 10 Tablets packed in Amber color Aluminium-Polyvinyl Chloride blisters sealed with Aluminum foil, 3 such blisters packed in a printed unit carton along with a package insert.

ALU PVC Blister (10x10): 10 Tablets packed in Amber color Aluminium-Polyvinyl Chloride blisters sealed with Aluminum foil, 10 such blisters packed in a printed unit carton along with a package insert.

Found in:

Trained Data: BP/USP: All pack sizes must be listed. (BP Monograph)

Reason: -

✓ COMPLIANT H₁₇ — PRIMARY CONTAINER DESCRIPTION

Value: The tablets are packaged in Alu/PVC blisters.

Found in:

☒ DOC5(Pack-Spec) Printed Aluminium foil Aciclovir Rhydburg 400 mg Tablets with text matter printed on single side.

☒ DOC5(Pack-Spec) Amber Coloured, transparent, PVC film

Trained Data: BP/USP: Blister packaging is standard for tablets. (BP Monograph)

Reason: -

Reviewer Remarks

- All PIL sections and ingredient listings are present and match reference documents and trained data.
- No critical, major, or minor non-compliances detected.
- Storage statements are consistent with reference STORAGE document; SOP_ARTWORK not supplied, so fallback to STORAGE/ICH Q₁A is appropriate.
- Excipient warnings for sodium and lactose are present and match EMA guideline.
- All packaging and appearance details are consistent across PIL, FPMP, QQ, and PACKING_SPEC.
- No arithmetic discrepancies in API strength.
- No missing or extra excipients detected.
- No regulatory query risk identified; document is ready for submission.
